May, 2026

Sub: Seeking nominations for National Awards for the Best Doctoral and Master's Theses in the field of corrosion science and engineering.

Dear Sir/Madam,

CorSciTech Committee (Corrosion Science and Technology Committee) was founded under the aegis of the Indian Institute of Metals, Mumbai Chapter to advance corrosion education and research in India. In order to facilitate this endeavour, CorSciTech has implemented National Awards for the Best Doctoral and Masters' theses in the field of corrosion science. The committee solicits nominations for the awards. Additional information regarding the award is available in the enclosed flyer. I would appreciate it if you could extend a wide range of publicity throughout your department and recommend the eligible theses.

Thank you in advance,

Sincerely,

Dr. Supratik Roychowdhury

Chair, CorSciTech.
